JAPS REPULSED IN NIGHT BATTLE

Attack Eight Russian Positions at the Same Time and Batter Them with Heavy Guns Four Hours Without Result.

KUROPAKIN PREPARES FOR GENERAL FIGHT.

Russian Fleet Leaves Vigo—British Collier Failing to Show Lights Reported Fired On in the Mediterranean.

ST. PETERSBURG, Oct. 31.—Gen. Sakharoff in a despatch to the General Staff dated to-day says:

"A Japanese attack on the Russian entrenchments north of Sinechou was repulsed. The Japanese artillery commenced the bombardment of eight positions at about 10 o'clock at night and kept it up until 2 o'clock this morning. A Japanese advance against the Russians near the village of Tungo was discovered last night and was met by the Russian artillery."

Other despatches indicate a general engagement is near.

A complete reorganization of the army is now under way. Gen. Kuropatkin, being in supreme command, is arranging the troops according to his own ideas of war. This he could not do as long as Viceroy Alexieff was in authority. Alexieff started for Russia yesterday.

Kuropatkin is expected to make his hardest and most determined battle in the next few days, when he will exert every effort to drive the Japanese south. The opinion exists here that Kuropatkin has direct orders from the Czar to make another attempt to retake Port Arthur.

FIERCE FIGHTING AT PORT ARTHUR AGAIN.

CHEFOO, Oct. 31.—The general assault upon Port Arthur, which began in a preliminary way on Oct. 24, developed into a fierce battle yesterday when the Japanese flung heavy forces against the fortress in their third attempt to secure a commanding position. The result is unknown.

The Japanese have been preparing for this assault for a month.

The bombardment began on Oct. 24 and continued furiously until late on Oct. 25, when the Russian guns on Etas, Aniao and Rihlung mountains ceased. A regiment of Japanese swept out from behind a recently captured hill and advanced. The Russians stuck to their ports till the Japanese were within a few yards, both sides hurling hand grenades. The Japanese are now using mechanical devices which enable them to throw grenades with great accuracy and rapidity.

The Russians eventually retired. The Russians exploded mines but, the Japanese claim, without result.

RUSSIANS FIRED ON BRITISH SHIP?

BERLIN, Oct. 31.—The Frankfurter Zeitung has a despatch from Tangier which states that the officers of the Baltic fleet there report that while en route to Tangier they shelled a British collier, which was without lights. The result of their fire is not known.

BERESFORD VISITS TANGIER LEGATION.

TANGIER, Morocco, Oct. 31.—Vice-Admiral Lord Charles Beresford arrived to-day on a torpedo boat, paid a brief visit to the British Legation and soon left to rejoin his flagship, the Majestic.

RUSSIAN WARSHIPS HAVE ALL LEFT VIGO

ST. PETERSBURG, Oct. 31.—The whole squadron has sailed from Vigo, leaving only four officers, one from each of the battleships which opened fire in the North Sea during the night of Oct. 23. These officers are on their way to St. Petersburg, where they will make a formal report and subsequently proceed to the Hague and give testimony before the Anglo-Russo commission.

The Admiralty formally states that only seven torpedo boats were with the Russian squadron and all have been accounted for.

The Admiralty says that the Russian fleet is not known to have been sighted since the North Sea incident occurred.

RUSSIA TO GET NEW GERMAN LOAN.

BERLIN, Oct. 31.—Emperor Nicholas received Herr Ernst von Mendelssohn, the Berlin banker, in audience Saturday. This is regarded on the Boerse as indicating that the negotiations for a new loan in Germany have been concluded. The details are not known here yet, but it is clearly understood that the loan will not be floated until January or February, 1905.

Emperor Mendelssohn's house has long been Russia's bankers in Berlin.

BETTING BEGINS TO DROP ON ROOSEVELT

Sudden Change in the Betting Follows the Announcement of a Six-Days-Before Election Whirlwind Campaign Planned by the Democratic Candidate.

Coincident with the arrival of Judge Alton B. Parker in New York to-day and the subsequent announcement of the whirlwind campaign in which he is to be the principal figure during the coming six days, the odds in Wall street, which have appeared to be overwhelmingly in favor of the election of Roosevelt, took a sudden drop and all over the city there were indications of a decided slackening in Republican confidence.

There is no place in the country so sensitive to a change in the public pulse than Wall street. Although odds of 6 to 1 on Roosevelt have been advertised there for days, no such odds have really existed, and the sight of a little Democratic money was all that has been necessary at any time to send the 6-to-1 shouters hustling for cover. It is a fact, however, that some bets at 5 to 1 have been made, and although for very small amounts they have been put forward as the standard quotations and accepted as such by those who do not know Wall street tricks.

One bet on Roosevelt at 4 to 1 was made to-day, and real money was used in the transaction. The people who took the Parker bet wanted more at the same price, but they couldn't get it. They were willing to take 4 to 1, and couldn't get that. It is even said that a lot of Parker money showed up ready to go on at as low as 2 to 1, and yet not being. Whether this is true or not, it is a fact that after that first bet at 4 to 1 no more Republican money could be found at the same odds.

DEMOCRATS ARE CONFIDENT.

This falling off of the odds in Wall street is the natural reflection of con-

He won his first fight in 1896, when Dal Hawkins received a decision over him in a fifteen-round bout in this city. His next defeat was at the hands of George McFadden, who knocked him out in twenty-three rounds in 1899. His principal fights are as follows:

San Francisco, Oct. 31.—Everything is ready for the Gans-Britt fight here to-night before the Yosemite A. C. The lightweight championship hinges on the result. Interest in the battle is intense and the house will surely amount to \$35,000.

Gans is the favorite in the betting at 10 to 7, but Britt has plenty of backers who will risk their bank rolls on his chances.

Gans is already at weight, tipping the beam this afternoon at 125 pounds. The conditions stipulate that the men must weigh in at the ring-side at 133 pounds, the light-weight limit, and now there is no doubt that the champion will tip the beam at that mark and be strong.

Gans was out on the road this morning for a five-mile sprint. This was to digest his breakfast. He returned feeling as fit as a fiddle, and said he was in perfect shape and eager for the fray.

Gans intends to Cut Britt up, as he defeats the Californian.

Britt came over this afternoon from his training quarters and retired to his home for a rest. He is under weight and strong. He will be 125 pounds at the ring-side.

As early as noon a long line of galleryites stood outside of Mechanics' Pavilion, eagerly buying up the seats. The fight is expected to be the best seen on the coast in years.

YOUNG COUPLE DIE FROM GAS IN HOTEL

Stove in Their Room Found Unlighted and Both Asphyxiated—Believed to Have Been Strangers.

A young couple who registered last night at Hermann's Hotel on South Orange avenue, Newark, as H. Evans and wife, were found asphyxiated in their room this afternoon. A daughter of Eckman detected the odor of gas, and traced it to the young couple's room. The door was forced and they were found dead in bed. The gas was flowing from a small stove.
